**Notes**

The MY MONOPOLY Web Tool should be intuitive, easy to use and "Helpful". To this end after the User Login the user is presented with this Overlay Dialog. The objective of the Overlay is to outline the KEY functionalities of the tool right up front. This Quick Walkthrough must be visually engaging and not just all text. A screen recording and some text works best.

**Item / Actions**

1. The 5 KEY focus areas (pages) of the Walkthrough are Gather Photos, Decorate Photos, Selecting Albums, Printing and Sharing. The pages automatically advance and each page should be as brief as possible. The content visual should be a screen recording of one of the Key process mentioned above.
2. The user shall be able to page forward and back through the five pages using the controls below the Presentation Window. The Page Curl is animated as part of the forward and back navigation of the pages.
3. The user shall have the ability to OPT of automatically, up front, being presented with this Welcome Screen when they next open the tool.
4. The user shall have the ability to close the dialog box and proceed to the tool proper.
